THE STORY

FRIDAY, 13 OCTOBER 1307

Across Europe, the Knights Templar are hunted down. The most powerful and mysterious order of the Middle Ages is falling – but the Templars carry one final secret: a treasure that was never found.

The treasure stayed in the same place – but the world changed around it. No single person ever knew the whole route. Yet there were guardians who each saw a part of it.

Your team **awakens in their lives**, one by one, in the very places where they lived. Every hidden connection you uncover breaks one Templar seal. Break all eleven – and the chest opens.

The Templars ride into their last night.

YOUR MISSION

BREAK THE ELEVEN SEALS

Every guardian holds one piece of the route. Listen to their stories, look closely at the city around you and connect what others missed. Only a team that works together will reach the chest before the others.

THE SEAL BREAKS!

YOUR GUIDES THROUGH PRAGUE

PRAGUE TOLD BY THOSE WHO LIVED IT

The game leads you through the most remarkable places of Prague – and at each one a fascinating character steps out of history to guide you. They tell gripping stories, show Prague in a way you will not find in any guidebook – and hand your team a task made for the very place you are standing in.

Stills from the game's original films – every location has its own scene.

HOW IT WORKS

SEVEN CENTURIES OF HISTORY IN YOUR HANDS

1

TAKE THE OATH

Each team receives a ready-to-play tablet, names its brotherhood and swears the Templar oath. The clock starts.

2

FOLLOW THE MAP

An illustrated map of old Prague shows eleven red wax seals. The team chooses its own route – the shortest way wins time.

3

AWAKEN IN THE PAST

Each location opens an interactive POV scene: you see through the eyes of a person who lived right there, and a famous figure of the time explains the era and its history.

4

BREAK THE SEAL

Every puzzle is made for that exact place – a statue, a plaque, a building. The answer hides in what you see around you; solve it and the seal cracks.

5

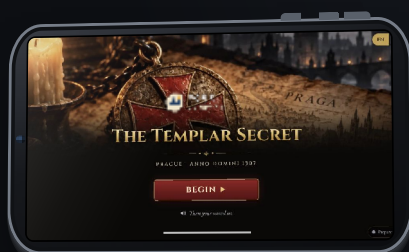

RACE THE CLOCK

Wrong answers cost minutes, hints are there when a team is stuck, and every photo challenge takes time off.

6

OPEN THE CHEST

When the last seal breaks, a golden line joins the seals on the map, the chest opens and the final film reveals the secret.

- ✠ **RUN FROM THE GOLEM!** – the scariest Golem and the most terrified team
- ✠ **THE METAMORPHOSIS** – when a colleague turns into a giant insect
